«SLAVA RAŠKAJ» EDUCATIONAL CENTRE ZAGREB

Who are we?

Slava Raškaj Educational Centre Zagreb is a part of the Ministry of Labour and Pension System, Family and Social Policy. We provide services to persons with impaired hearing, with normal hearing but with impairments concerning the voice-speech-language communication, with communication difficulties linked to autism, pervasive developmental disorder and multiple disorders. Our clients are aged 0-30.

Our mission and vision

Our main activities are rehabilitation and education of children and young people with impaired hearing and speech as well as children with communication difficulties in order to become happy, independent and responsible persons. By providing support and services for persons with difficulties in communication, as well as to their families, we encourage the development of communication and living skills that will enable our clients to become happy, independent adults.

Our history

Slava Raškaj (1877 - 1906)

In 1885, Adalbert Lampe established the first school for the hard of hearing and speaking in Croatia and in 1891 the National Institute for The Hard of Hearing and Speaking was founded in Zagreb. In the year 1979, the Institute was reorganized and renamed after Slava Raškaj, the famous Croatian deaf painter.
