Our mission

By providing professional assistance to our clients and their families, we help them overcome difficulties and socialize in their everyday lives. Our mission is to help them become happy, independent and responsible persons.

Our history

Slava Raškaj (1877 - 1906)

In 1885, the first school for the hard of hearing and speaking in Croatia was established by Adalbert Lampe, and in 1891 the National Institute for The Hard of Hearing and Speaking was founded in Zagreb. In the year 1979, the Institute was reorganized and renamed after Slava Raškaj, the famous Croatian deaf painter.
